

Video Editing and Passion Projects

CLIENT: WEB REACTIONISTS

I edit movies, tv shows, game clips and other videos to create gifs for use on message boards and social media comment sections.

A lot of influencers and internet personalities look for interesting media clips to express a thought, feeling or emotion.

I create such gifs and/or "reaction" content such as this one from the movie *The Five Heartbeats*. A "reaction gif" saying "Join the party" or "See how I feel?"
